Is an Owner's Policy Worth the Investment?

Title Insurance is based on loss prevention. A typical title search involves searching public records as well as our own Title Plant. No other insurance does this level of due diligence before issuing a policy.

When there is a claim against the title policy it is often due to a title defect that was undetected during the title search. The most common problems are **FRAUD** and **FORGERY**. When there is a loss it is usually significant and oftentimes in the hundreds of thousands of dollars.
